

Zhejiang University Student Gaokao Stories

Student A (Computer Science)

The Gaokao was the most intense period of my life. I remember waking up at 6 AM and studying until midnight. My weak point was Chinese literature, so I memorized ancient poems every morning. Getting into ZJU was a dream come true.

Student B (Medicine)

I focused heavily on Biology and Chemistry. The pressure was immense, especially from my parents. But looking back, those days taught me resilience. ZJU's medical program is top-tier, and I'm proud to be here.

Student C (Electrical Engineering)

Math was my stronghold. I solved thousands of problems. The key was not just working hard, but working smart - analyzing mistakes. Walking by the Qizhen Lake now, I feel all that effort was worth it.
